

List of California Municipalities Regulating Smoking in Multi-Unit Housing

April 2024

There are **104 California municipalities** that have adopted local laws that **at minimum** regulate smoking in private units of multi-unit housing.

This list does not indicate the strength of the laws. The list contains jurisdictions with the strongest laws that require all multi-unit housing properties with 2 or more units to be free from all types of secondhand smoke, as well as jurisdictions with laws that have limitations or exemptions, such as applying only to rental multi-unit housing, applying only to a certain percentage of units per building, not covering existing residents, or not covering vaping products or marijuana smoking/vaping.

See the **Matrix of Smokefree Multi-Unit Housing Policies in California** for detailed information on the strength and scope of policy provisions for the laws that have been analyzed by PETS staff.

This list includes laws in the PETS database, as well as laws that have been analyzed by ANRF staff and laws that have not yet been analyzed by ANRF staff. See explanations on page 2.
